Professional Summary – 5+ Years

Enthusiastic Flutter Developer with 3 years of experience in building responsive and user-friendly mobile applications. Proficient in using GetX for state management, ensuring efficient data handling and seamless user experiences.

Results-driven Full Stack Developer with 5 years of experience in building scalable web applications. Proficient in Node.js for backend development, SQL for database management, and Postman for API testing and documentation. Committed to delivering high-quality solutions and optimizing application performance.

WORK EXPERIENCE

Programmer (Flutter Developer)

Globe Textiles (India) Ltd -Ahmedabad

Apr 2022 – Still

Mobile Application Development (Android, IOS, Web) using flutter framework, Web Application Development, ERP Report Creation, Maintaining ERP application. Writing Procedures, Table, Functions, Trigger and View On SQL SERVER 2008 / 2014. Database Creation and maintaining. Flutter Application Creation and Maintaining. Solve User/ Team ERP Queries.

Junior Software Developer

Chattary Ajwan Infotech -Ahmedabad

Oct 2019 – Feb 2022

In my role, I was responsible for creating master and report forms using .NET to streamline data collection and management processes. I then utilized Crystal Reports to generate and present reports for viewing, pulling data from MS SQL Server to provide real-time insights. The reports were designed to be dynamic, ensuring up-to-date information was always available for decision-making.

EDUCATION

Bachelor's Degree in Information Technology

Rathinam Technical Campus - Coimbatore

Aug 2015 – Apr 2019

Higher Secondary Certificate (HSC)

Dr.Ambedkar Boys Govt School - Cuddalore

2013 –2015

Secondary School Leaving Certificate (SSLC)

Dr.Ambedkar Boys Govt School - Cuddalore

Mar- 2013

Google Play Store & App Store

Proficient in managing the deployment of Android/IOS applications, including uploading and configuring releases on the Google Play Console & app store, ensuring compliance with platform policies and guidelines.

Firestore

Firestore (Authentication, Firestore)

Implementing Firestore Cloud Firestore for real-time data storage and retrieval. Utilized Firestore Cloud Storage for managing user-generated content, ensuring seamless file uploads and downloads.

Implemented image uploading (PNG, JPG, WEBP) and management, including Firestore Storage integration with Node.js.

Node.js

Knowledge of Node.js for creating RESTful APIs and Handling file uploads using multer.

Implemented image uploading (PNG, JPG, PDF, WEBP) and management, including Firestore Storage and MSSQLServer integration with Node.js.

Postman- API Tester

Performed manual API testing using Postman to ensure seamless integration and functionality of web services. Developed and executed complex API test cases to validate RESTful APIs, ensuring the correctness of data and endpoints. Used Postman Environment Variables to simulate different environments (e.g., testing, production) to validate endpoints under various scenarios.
