PROFESSIONAL EXPERIENCE

Globe Enterprises (India) Ltd — GTIL, Ahmedabad

Programmer (Flutter Developer)

Apr 2022 – Present

Mobile & Web ERP Application

- Architected and delivered cross-platform applications (Android, iOS, Web, Desktop) in Flutter using Clean Architecture and GetX, maintaining consistent UI/UX and performance across all four platforms from a single codebase.
- Built and maintained Node.js/Express.js REST APIs integrated with Flutter clients, enabling reliable real-time data exchange between mobile, web, and backend systems.
- Integrated Firebase services — Firestore (real-time database), Authentication, Cloud Messaging (FCM), and Storage — to deliver secure, scalable backend support for 50+ active users.
- Designed, maintained, and performance-tuned MSSQL Server (2008/2014) databases, including schema design, indexing strategy, and advanced query optimization.
- Authored complex stored procedures, triggers, functions, and views to support dynamic ERP business logic.
- Led ERP module development and maintenance end-to-end — requirements gathering, database integration, and report generation — resolving user/team issues and delivering enhancements on an ongoing basis.
- Delivered customized SQL-driven reports for multiple departments, directly supporting data-driven decision-making for stakeholders.
- Automated release workflows with GitHub Actions for CI/CD, APK/AAB build automation, and Firebase App Distribution.
- Maintained code quality and version control (GitHub) through active participation in code reviews and Agile sprint ceremonies.
